VersaSTUDIO BD-8

Roland

Firmware Update Request

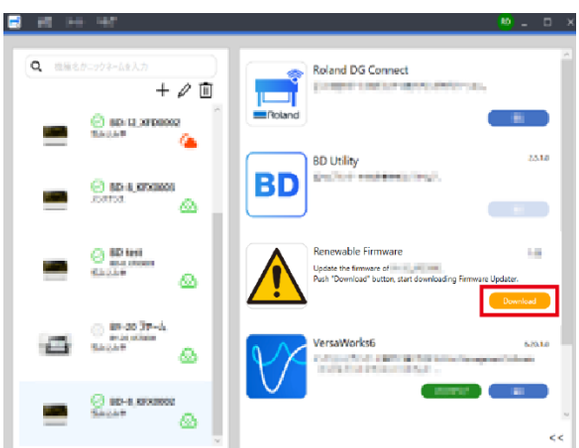

The firmware for the machine you are currently using needs to be updated. Failure to update the firmware may result in unexpected machine performance or malfunction. To ensure safe and correct operation of the machine, please update the firmware to the latest version before continuing use.

Follow the procedure below to update the firmware.

Firmware Update Procedure

1 **Open Roland DG Connect.**

2 **Click [Download].**

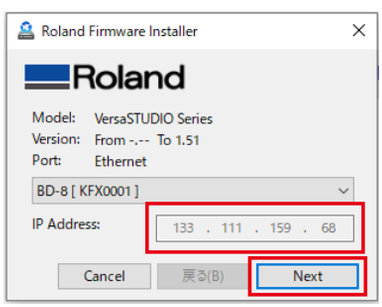

3 **Download “BDFirm.zip” to the desired location.**

4 **Extract the files from “BDFirm.zip”.**

5 **Run BDFirm***.exe in the BDFirm folder.**

6 **Enter the IP address and click [Next].**

The new firmware will be installed.

7 **When the message “The installation of firmware was successful.” appears, click [OK].**

This completes the firmware update. The machine will automatically restart.
