Introduction

Installation

Installing VersaWorks on a computer on which PrintEXP is installed makes it possible to select the EU2-1000MF with VersaWorks. Check that PrintEXP is installed on the computer on which you will install VersaWorks.

About VersaWorks Help (Electronic-format Manual)

The operation method of VersaWorks is written in this manual. The VersaWorks help is an instruction manual that you can view from the computer screen. The help can be viewed once the software is installed.
To display the help, perform the following operations.

Start VersaWorks, click the [Help] menu, and then click [Show Help].

Installation and Settings

Downloading and Installing VersaWorks

MEMO

A connection to the Internet is required to download the software.

IMPORTANT

VersaWorks should be installed on the same computer that PrintEXP is installed on. If VersaWorks is installed on a computer that does not have the PrintEXP installed, selecting the EU2-1000MF will not be possible in VersaWorks.

1. **Access the download website (https://downloadcenter.rolanddg.com/VersaWorks7#software).**
2. **Click [VersaWorks 7].**
3. **Click the [for Windows [202*-**-**, Ver.*.**.*]].**
   Configure [Select a model] and [Select language], then click [Continue].
4. **Download the software according to the instructions in the window.**

   MEMO

   Save the 4 downloaded files into the same folder.

5. **Double-click the downloaded [VersaWorks7.part1.exe] file.**
6. **Follow the installer instructions to install VersaWorks 7.**

Registering Printers in VersaWorks

MEMO

PrintEXP and VersaWorks are required to print with this machine.

- VersaWorks:

  VersaWorks is an app for configuring various print settings such as layout and quality. After configuring the necessary settings, click Print to save the print data in the folder specified for saving print data.

- PrintEXP:

  PrintEXP is an app for opening and printing print data created in VersaWorks. Printing is possible after configuring the necessary settings.

1 Start VersaWorks.

Click [Start]>[All apps]>[VersaWorks 7]>[VersaWorks 7].

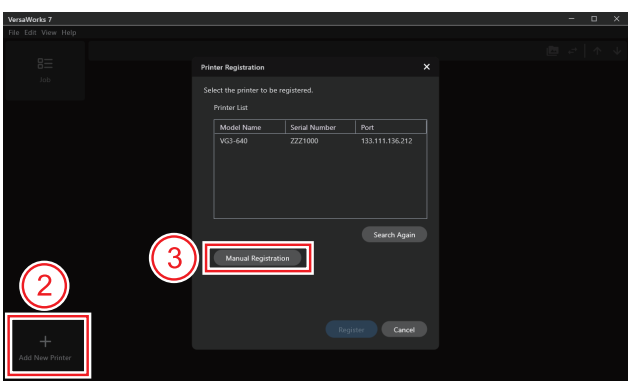

MEMO

When VersaWorks is first started after installation, the [Printer Registration] window appears. Proceed to Step 3.

2 Click [Add a printer].

The [Printer Registration] window appears.

3 Click [Manual Registration].

4 Click [FILE].

[Printer Name:] is now selectable.

5 Under [Printer Name:], select [EU2-1000MF (** ****)].**

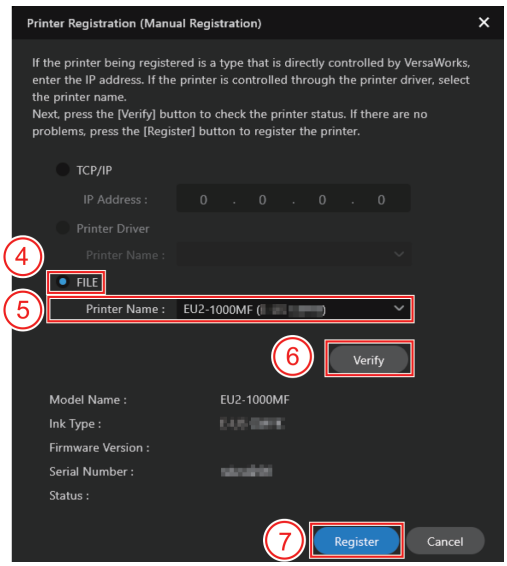

MEMO

Select the EU2-1000MF with the ink type you are using.

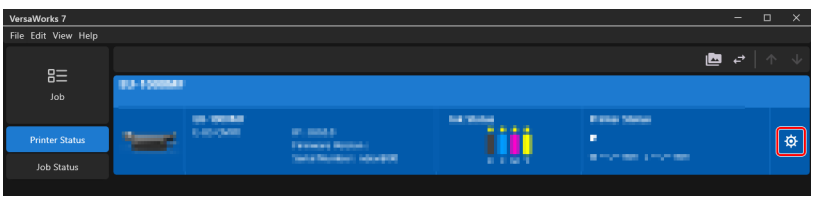

6 Click [Verify].

The model name and other information of the printer to connect appears.

7 **Click [Register].**

8 **Click** 

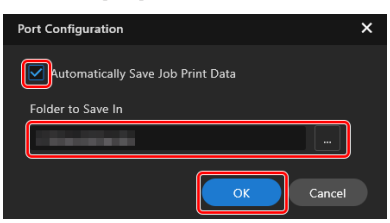

9 **Click [Port Configuration].**

10 **Specify where to save print data created with VersaWorks.**

① **Select the [Automatically Save Job Print Data] check box.**

② **Specify where to save print data PRT files created with VersaWorks.**

③ **Click [OK].**

MEMO

License authentication is required before VersaWorks can be used.

If you will use VersaWorks with this machine, carry out an offline authentication. To do so, click [Help]>[License Authentication]>[Offline Authentication].

This completes the registration procedure.
