For IU-1000F Cleaning Kit Users

This guide introduces the cleaning kit.

Nitrile (rubber) gloves **Polyethylene gloves**	Be sure to wear these gloves when performing maintenance. Wear three layers of gloves and put them on in the following order: nitrile gloves, polyethylene gloves, nitrile gloves. These are disposable items, so do not reuse them; always use new ones. Also, use gloves that are equivalent to the included ones if using gloves other than those included.
Paper towels 	Use the paper towels when cleaning the outside of the machine. These are disposable items, so do not reuse them; always use new ones.
Non-woven fabrics 	Use a non-woven fabric when cleaning the maintenance station and around the print heads. Soak this item in cleaning liquid before cleaning the machine. These are disposable items, so do not reuse them; always use new ones.
Cleaning sticks	Use a cleaning stick when cleaning the capping station, wiper, and around the print heads. Soak this item in cleaning liquid before cleaning the machine. These are disposable items, so do not reuse them; always use new ones.
