To Ensure Safe Use

Improper handling or operation of this machine may result in injury or damage to property. Points that must be observed to prevent such injury or damage are described as follows.

Meaning of ⚠ WARNING and ⚠ CAUTION

⚠ WARNING	Used for instructions intended to alert the user to the risk of death or severe injury should the unit be used improperly.
⚠ CAUTION	Used for instructions intended to alert the user to the risk of injury or material damage should the unit be used improperly. *Material damage refers to damage or other adverse effects caused with respect to the home and all its furnishings as well as to domestic animals or pets.

About the Symbols

	The ⚠ symbol alerts the user to important instructions or warnings. The specific meaning of the symbol is determined by the design contained within the ⚠ symbol. The symbol at left means "danger of electrical shock."
	The ⃠ symbol alerts the user to items that must never be carried out (are forbidden). The specific meaning of the symbol is determined by the design contained within the ⃠ symbol. The symbol at left means the unit must never be disassembled.
	The ● symbol alerts the user to things that must be carried out. The specific meaning of the symbol is determined by the design contained within the ● symbol. The symbol at left means the power-cord plug must be unplugged from the outlet.

This Is a Heavy Machine

⚠ WARNING	
	**Entrust operations such as transportation, unloading, and emplacement to trained professionals.** Suitable equipment and technical skills are required in handling the machine. Tasks that require undue effort may result in a major accident.
	**Install the machine in a location that is level, stable, and able to bear the weight of the machine after checking the weight of the machine in the operation manual on the installation of the machine.** Installation in an unsuitable location may cause a major accident, including tip over, fall, or collapse.
	**Unloading and emplacement are operations that must be performed by the specified number of the workers or more as referring to the operation manual on the installation of the machine.** Tasks that require undue effort when performed by a small number of persons may result in physical injury. Also, if dropped, such items may cause injury.
	**Be sure to lock the stand's casters.** If the machine should begin to topple, a major accident may result, including crushing of the parts of your body.
	**Handling roll media is an operation that must be performed by 2 persons or more, and care must be taken to prevent falls.** Attempting to lift heavy media in a manner that taxes your strength may cause physical injury. Also, if dropped, such items may cause injury.
	**When storing roll media, implement adequate safety measures to ensure that the stored media will not roll, fall, or topple over.** Danger exists of becoming pinned under the media and suffering serious injury.

Incorrect Operation May Cause Injury

⚠ WARNING

	**Be sure to follow the operation procedures described in this machine's documentation. Never allow anyone unfamiliar with the usage or handling of the machine to touch it.** Incorrect usage or handling may lead to an accident.
	**Keep children away from the machine.** The machine includes areas and components that pose a hazard to children and may result in injury, blindness, choking, or other serious accident.
	**Never operate the machine while tired or after ingesting alcohol or any medication.** Operation requires unimpaired judgment. Operating with impaired judgment may result in an accident.
	**Always unplug the power cord when attaching or removing parts and optional parts and when performing cleaning or maintenance that does not require the machine to be connected to a power source.** Attempting such operations while the machine is connected to a power source may result in injury or electrical shock.
	**Never attempt to disassemble, repair, or modify the machine.** Doing so may result in fire, electrical shock, or injury. Entrust repairs to a trained service technician.

⚠ CAUTION

	**Exercise caution to avoid being pinched or becoming caught.** Inadvertent contact with certain areas may cause the hand or fingers to be pinched or become caught. Use care when performing operations.
	**Never attempt operation while wearing a necktie, necklace, or loose clothing. Bind long hair securely.** Such items may become caught in the machine, resulting in injury.
	**Conduct operations in a clean, brightly lit location.** Working in a location that is dark or cluttered may lead to an accident, such as becoming caught in the machine as the result of an inadvertent stumble.
	**Never climb or lean on the machine.** The machine is not made to support a person. Climbing or leaning on the machine may dislodge components and cause a slip or fall, resulting in injury.
	**Caution: cutting tool.** This machine has a cutting tool. To avoid injury, handle the tool with care.
	**Caution: sharp components.** This machine contains areas that are sharp. To avoid injury, exercise caution.

Danger of Electrical Short, Electrical Shock, or Fire

⚠ WARNING	
	**Connect to an electrical outlet that complies with this machine's ratings (for voltage, frequency, and current).** Incorrect voltage or insufficient current may cause fire or electrical shock.
	**Never use outside or in any location where exposure to water or high humidity may occur. Do not touch the power cord, plug, or electrical outlet with wet hands.** Doing so may result in fire or electrical shock.
	**Never allow any foreign object to get inside. Never place liquids on the machine or expose it to liquid spills.** Inserting objects such as coins or matches or allowing beverages to be spilled into the ventilation ports may result in fire or electrical shock. If anything gets inside, immediately disconnect the power cord and contact your authorized dealer.
	**Never place any flammable object nearby. Never use a combustible aerosol spray nearby. Never use in any location where gases can accumulate.** Combustion or explosion could occur.
	**Handle the power cord, plug, and electrical outlet correctly and with care. Never use any article that is damaged.** Using a damaged article may result in fire or electrical shock.
	**When using an extension cord or power strip, use one that adequately satisfies the machine's ratings (for voltage, frequency, and current).** Use of multiple electrical loads on a single electrical outlet or of a lengthy extension cord may cause fire.
	**Connect to ground.** This can prevent fire or electrical shock due to current leakage in the event of malfunction.
	**Position the machine so that the power plug is within immediate reach at all times.** This is to enable quick disconnection of the power plug in the event of an emergency. Install the machine next to an electrical outlet. Also, provide enough empty space to allow immediate access to the electrical outlet.
	**If sparks, smoke, burning odors, unusual sounds, or abnormal operation occur, immediately unplug the power cord. Never use if any component is damaged.** Continuing to use the machine may result in fire, electrical shock, or injury. Contact your authorized dealer.
	**Do not use the supplied power cord for other products.**

	Never use the machine for any purpose for which it is not intended, or use the machine in an excessive manner that exceeds its capacity. Doing so may result in injury or fire.
	For accessories (optional and consumable items, power cord, and the like), use only genuine articles compatible with this machine. Incompatible items may lead to an accident.

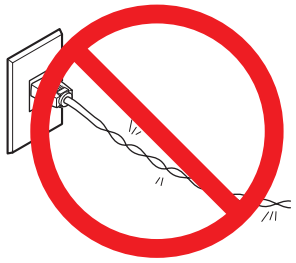

Important notes about the power cord, plug, and electrical outlet

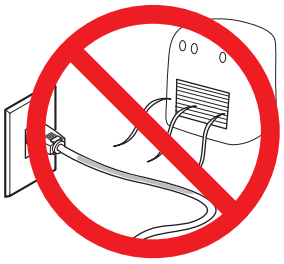

Never place any object on top or subject to damage.

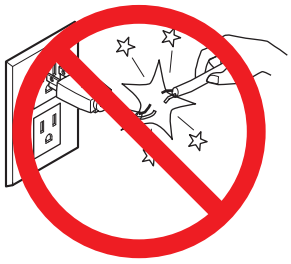

Never allow to get wet.

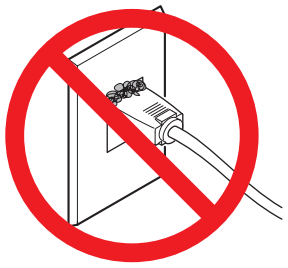

Never bend or twist with excessive force.

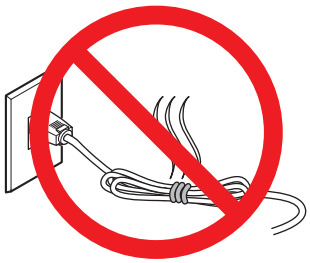

Never make hot.

Never pull with excessive force.

Dust may cause fire.

Never bundle, bind, or roll up.

Danger of Fire, Burns, or Toxic Gas Emissions

⚠ WARNING	
	**High Temperature** Areas such as the dryer become hot. Exercise caution to avoid burns.
	**Remove any loaded media or switch off the sub power when printing is not being performed.** The continued application of heat at a single location may cause the release of toxic gases from the media or pose a fire hazard.
	**Never use media that cannot withstand heat.** Doing so may degrade the media, or may result in fire or the release of toxic gases.

Ink, Cleaning Liquid, and Discharged Fluid Are Flammable and Toxic

⚠ WARNING

Keep open flame away from the work area.
Ink and discharged fluid are flammable.

Never store ink, cleaning liquid, or discharged fluid in any of the following locations.

- Any location exposed to open flame
- Any location where high temperature may occur
- Near bleach or any other such oxidizing agent or explosive material
- Any location within the reach of children

Fire may be a danger. Accidental ingestion by children may pose a health hazard.

Never place an ink container (such as a cartridge or pouch) in fire.
Ink may flow out, catch fire, and spread fire to other nearby objects.

Never drink or sniff ink, cleaning liquid, or discharged fluid, or allow them to come in contact with the eyes or skin.
Doing so may be hazardous to your health.

⚠ CAUTION

Ensure adequate ventilation for the work area.
Failing to perform ventilation may result in a health hazard or danger of combustion due to ink fumes.

Never allow an ink container (such as a cartridge or pouch) to be subjected to impact, and never attempt to disassemble.
Ink may leak.

In the Event of Ingestion or Physical Distress

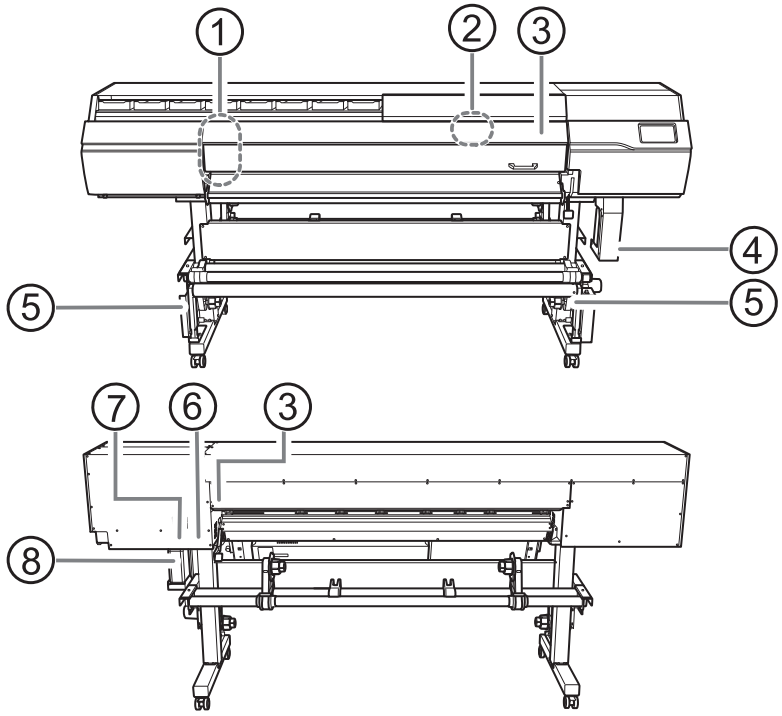

- In the event of contact with the eyes, immediately flush with water for at least 15 minutes. If eye irritation continues, seek treatment by a physician.
- In the event of contact with skin, immediately wash with soap. If irritation or inflammation occurs, seek treatment by a physician.
- In the event of ingestion, do not induce vomiting, and immediately seek treatment by a physician. Forcibly inducing vomiting may lead to danger of choking.
- If odor leads to physical distress, move to a well-ventilated location and rest quietly. If dizziness or nausea persists, seek treatment by a physician.

IMPORTANT

Refer to the appropriate safety data sheet (SDS) for the chemical substances used in the ink and the safety related to those substances.

Warning Labels

Warning labels are affixed to the machine to make areas of danger immediately clear. The meaning of this label is indicated below. Be sure to heed this warning. Also, never remove the labels or allow them to become dirty.

①		**Caution: High Temperature** The platen and dryer become hot. Exercise caution to avoid burns.
②		**Caution: Pinching Hazard** Be careful not to allow the fingers to become pinched when closing covers.
③		**Caution: Moving Print Heads** Never insert your hands or fingers into the gap. The print heads move at high speed and pose a hazard.
④		**Ink, cleaning liquid, and discharged fluid are toxic.** If these fluids come into contact with the eyes or skin, it may be hazardous to the health. When performing maintenance work, for example when disposing of discharged fluid, wear protective eyewear and protective gloves (refer to the safety data sheet [SDS]).

⑤		**Caution: Pinching Hazard** Be careful to prevent fingers from being pinched when handling the dancer roller.
⑥		**Caution: Heavy Object** To prevent injury, handle the roll media with two or more people.
⑦		**Caution: High Voltage** Removing the cover may result in high-voltage electric shock.
⑧		**Flammable** Ink and discharged fluid are flammable. Keep away from open flame.

NOTICE

Grounding Instruction

- In the event of a malfunction or breakdown, grounding provides a path of least resistance for electric current to reduce the risk of electric shock. This tool is equipped with an electric cord having an equipment-grounding conductor and a grounding plug. The plug must be plugged into a matching outlet that is properly installed and grounded in accordance with all local codes and ordinances.
- Do not modify the plug provided - if it will not fit the outlet, have the proper outlet installed by a qualified electrician.
- Improper connection of the equipment-grounding conductor can result in a risk of electric shock. The conductor with insulation having an outer surface that is green with or without yellow stripes is the equipment-grounding conductor. If repair or replacement of the electric cord or plug is necessary, do not connect the equipment-grounding conductor to a live terminal.
- Check with a qualified electrician or service personnel if the grounding instructions are not completely understood, or if in doubt as to whether the tool is properly grounded.
- Use only 3-wire extension cords that have 3-prong grounding plugs and 3-pole receptacles that accept the tool's plug.
- Repair or replace damaged or worn cord immediately.

For the USA

FEDERAL COMMUNICATIONS COMMISSION RADIO FREQUENCY INTERFERENCE STATEMENT

Responsible Party: Roland DGA Corporation

Address: 15363 Barranca Parkway Irvine, CA 92618, U.S.A.

Telephone: 949-727-2100

Type of Equipment: Printer

Model Name: VG3-640 VG3-540

NOTE:

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in

a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC CAUTION

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Use only I/O cables that have been designed and manufactured specifically for this device.
